# LC<sup>3</sup> Day Portugal

28 May 2024, in LNEC Lisbon  
(LNEC - Laboratório Nacional de Engenharia Civil)

Avenida do Brasil 101, Building C 'Manuel Rocha' (Room 1), Lisbon, Portugal

## Objective

Leading experts in academia and industry will present the latest developments of cements containing calcined clays and limestone (LC<sup>3</sup>), with emphasis on the environmental and economic impact of the new material. The program will look closely at the Portuguese, European and West African markets and pinpoint opportunities for use of calcined clays to rapidly decarbonise the sector. You will hear from LC<sup>3</sup> Project experts, 'early adopters' – companies already producing LC<sup>3</sup> at industrial levels across the world – as well as equipment and admixture suppliers with first-hand experience using LC<sup>3</sup>. Register today and be part of the conversation of low-carbon cement LC<sup>3</sup>!

# Day Portugal

© LNEC

## Speakers:

**Dr. Laura Caldeira**  
LNEC President, Portugal

**Antonio Bettencourt Ribeiro**  
LNEC, Portugal

**Prof. Karen Scrivener**  
EPFL, LC3 Project Director

**Prof. Fernando Martirena**  
Ecosolutions, LATAM

**Laurent Grimmeissen**  
Cementis, Switzerland

**Manuel Vieira**  
LNEC, Portugal

**Luis Saraiva**  
Cobetek

## Programme:

- 8:30-9:00 Registration of participants
- 9:00 Welcome remarks  
*Dr. Laura Caldeira, LNEC President*
- 9:30 The cement and concrete industry in Portugal.  
Is the country ready for low carbon cement?
- 10:00 LC<sup>3</sup> / LC<sup>2</sup> opportunities for fast and large-scale  
decarbonisation of cement and concrete  
*Prof. Karen Scrivener, EPFL*
- 10:30 Coffee break
- 11:00 Update on practical experiences during industrial  
dissemination of LC<sup>3</sup>  
*Prof. Fernando Martirena, UCLV*
- 11:30 Importance of LC<sup>3</sup> in implementing latest climate  
changes initiatives  
*Laurent Grimmeissen, Cementis*
- 12:00 Investigation on the use of calcined clays for the  
production of cement in Portugal  
*Manuel Vieira, LNEC*  
*Luis Saraiva, Cobetek*
- 12:30 Lunch (buffet)
- 13:30 Panel on equipment suppliers  
*Companies producing equipment for calcination  
and grinding*
- 14:30 Panel on admixture providers  
*Companies producing admixtures for cement and  
concrete containing calcined clays*
- 15:30 Panel on LC<sup>3</sup> producers  
*Companies producing calcined clays worldwide*
- 16:30 Plenary discussion with all speakers  
*All speakers with moderator*
- 17:00 Closure of the event
